

Academic Technology Services Moodle

How do I turn on my Moodle course for students to view?

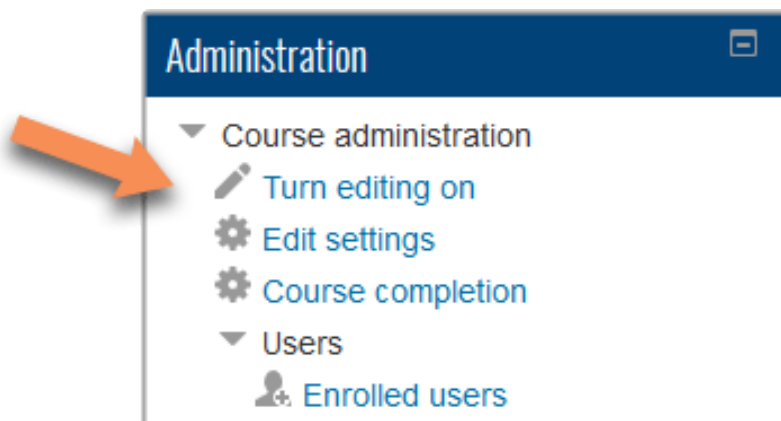

Prepare:

- Login to Moodle using the Mozilla Firefox browser, visit: [FAQ ID #1175](#)
- Find your course, visit: [FAQ ID #1176](#)
- Turn **Editing on**, visit: [FAQ ID #1189](#)

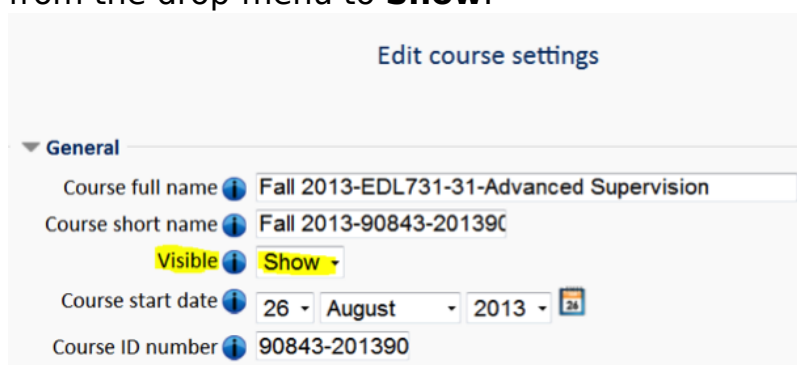

Activating a Course

If your students can't see your course, it could be invisible to them. You need to make your course visible or "activate" your Moodle course.

1. From the Administration block choose **Edit Settings**.

2. In the **General** section, locate the **Visible** setting, and change the option from the drop-menu to **Show**.

3. Scroll down to the bottom of the page and choose **Save Changes**.
